Description and programme

Outline programme – what can you look forward to?

Montenegro has plenty to offer …

• The birth of a river and a mountain paradise:

A passage past wild springs where the famous Tara river is born. The route takes you to green mountain meadows right beneath the huge rock walls of the Komovi mountains, where you can taste fresh cheese from local shepherds.

• Forgotten green ridges:

Cycling through deep forests and secret passes of the north, revealing panoramic views of the surrounding hills. At every step you will come across clean springs of ice-cold water and free-grazing cattle.

• The stone sea of the karst: a ride through a bizarre, silent labyrinth of limestone rocks and sinkholes that looks like it belongs on another planet. At the end the rugged landscape gives way to a view of a vast fertile plain and a lively historic square.

• A monastery in the rock and ancient traces: a route that links spirituality with history. You will climb to a magical white monastery that literally hangs on a vertical rock face high above the valley, and later pass ancient stone Roman ruins.

• From alpine tundra to gorges: a start on a wind-swept plateau reminiscent of the northern tundra. From there a steep descent awaits you into a deeply hidden mountain village at the confluence of wild rivers, followed by a ride through quiet wooded canyons.

• The endless pastures of a loner: an expedition across the second largest mountain pasture in Europe. For many kilometres you cycle in absolute silence on the border of sky and earth, where you will meet only flocks of sheep and traditional wooden shepherd huts.

• The mystical Dragon's jewel and a waterfall: a climb to a fairy-tale glacial lake with water lilies, guarded by giant rocks. Then an endlessly long descent from the mountains to the lowlands awaits you, which you finish with a rest by a roaring waterfall and a turquoise river.
